Title: Securing the Gateways: Cyber Resilience for Ports and Airports

The session equips port, airport, and private sector executives with strategies to strengthen resilience across critical gateways of trade and travel. Drawing upon international best practices and Florida’s statutory mandates (F.S. 282.318 & 282.3185), participants will explore cyber risk governance, incident response leadership, and compliance frameworks. Leaders will gain strategic insights on safeguarding critical infrastructure, ensuring continuity of operations, and maintaining public trust in transportation and logistics systems.
